- TCG Prime NBX Service
- TCG Public Telephone Service
- 9-1-1 Telecommunications Service
- TCG Prime Plex PRI Service
- Prime Reach IntraLATA Service
- PrimePath NBX
- Digital Link Prime

(N)

The following sections set forth the rules and regulations governing the application of rates for TCG Local Exchange Services.

---

**SECTION 3.0 - TCG LOCAL EXCHANGE SERVICE****3.3 Service Components**

TCG Local Exchange Service is the furnishing of facilities necessary for communicating within and between specified exchange areas. The service is classified as both Local Exchange and IntraLATA Toll Service. Service is comprised of three components:

1. Nonrecurring Connection Charge
2. Monthly Network Access Line Rates
3. Monthly Usage Charges for Market Service Area 1

Service is furnished only for use by the customer, the customer's family, guest, household, employees and business associates.

**3.4 Classes of Service**

The classification of a customer's service as business is determined by these regulations which define the character of use for rate purposes.

**3.4.1 Service will be classified as business if:**

1. The service is used primarily or substantially for a paid commercial, professional or institutional activity; or
2. The service is situated in a commercial, professional or institutional location, or other location serving primarily or substantially as a site of an activity for pay; or
3. The service number is listed as the principal or only number for a business in any Ameritech Pages Plus directory; or
4. The service is used to conduct promotions, solicitations, or market research for which compensation or reimbursement is paid or provided. However, such use of service, without compensation or reimbursement, for a charitable or civic purpose shall not constitute business use of a service.

---

**SECTION 3.0 - TCG LOCAL EXCHANGE SERVICE****4.6 PrimePath Service****A. Description**

(C)

PrimePath Services provide a Customer with one or more analog voice-grade telephonic communications channels) that can be used to place or receive one call at a time. PrimePath business lines are provided for connection to Customer-provided single-line terminal equipment such as station sets or facsimile machines. PrimePath business line service is offered as either business lines, key lines, or business trunks. Customers utilizing PrimePath business line services must subscribe to a sufficient number of access lines to handle adequately the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company. The number of access lines required to handle adequately such traffic will be determined by Company measurements. In the event that an inadequate number of lines causes interference, the Company shall have the right to discontinue service without prior notification to the Customer. A one-year term commitment is required.

(N)

**B. Service Charges**

Non-recurring Service Order Charges apply to various Customer requests on a per order basis. Requests for ordering, connecting, installing, changing or moving of telecommunications services that relate to business lines, key lines, or business trunks. ### 3.0 Description of Services Offered

#### 3.1 Local Service

##### 3.1.1 Nature of Service

Local Service is a service that allows customers to originate non-toll local calls at locations within the service areas in which McLeodUSA has been approved for certification for termination within the local calling area (including any applicable EAS areas) of those locations. Subject to service availability and the package selection by the customer, Local Service may include services in addition to those required for completion of non-toll local calls (including services which may not be subject to regulation under this tariff) which are purchased as part of a bundled package.

##### 3.1.2 Availability

McLeodUSA offers local service in the areas in which it has been certified by the Illinois Commerce Commission and in which McLeodUSA has available required network facilities or is able to lease required network facilities to enable the offering of service. Some features may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package available in a given market depending on network availability or configuration.

##### 3.1.3 Local Service Packages

The standard elements of local line packages consist of local dial tone and unlimited local calling unless otherwise noted in a Service specific description. Mandatory extended area service ('EAS') is provided where applicable for the prices set forth in the Rate Tables. Customers with multiple lines at a single location may purchase different Packages for each telephone line at a particular location. Business Customers purchasing a Business Package may select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location. Business Customers purchasing Local Service Packages are also eligible to purchase a per minute long distance service that offers reduced long distance rates due to the purchase of bundled package of local and long distance services from McLeodUSA. Residential Customers shall select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location.
